

## NACA rabbit pAb antibody

| Catalog No :          | Source:   | Concentration : | Mol.Wt. (kD): |
|-----------------------|---|-----------------|---------------|
| A18068                | Rabbit  | 1 mg/ml         | 23 kD         |
| Applications          | WB,ELISA  |                 |               |
| Reactivity            | Human,Mouse   |                 |               |
| Dilution              | WB 1:500-2000 ELISA 1:5000-20000  |                 |               |
| Storage               | -20°C/1 year  |                 |               |
| Specificity           | NACA Polyclonal Antibody detects endogenous levels of protein.  |                 |               |
| Source / Purification | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.   |                 |               |
| Immunogen             | Synthesized peptide derived from human protein . at AA range: 100-180   |                 |               |
| Uniprot No            | Q13765  |                 |               |
| Alternative names     |   |                 |               |
| Form                  | Liquid in PBS containing 50% glycerol, and 0.02% sodium azide.  |                 |               |
| Clonality             | Polyclonal  |                 |               |
| Isotype               |   |                 |               |
| Conjugation           |   |                 |               |
| Background            | nascent polypeptide-associated complex alpha subunit(NACA) Homo sapiens This gene encodes a protein that associates with basic transcription factor 3 (BTF3) to form the nascent polypeptide-associated complex (NAC). This complex binds to nascent pr |                 |               |
| Other                 | Gene_name: NACA HSD48 ; Protein_name: Nascent polypeptide-associated complex subunit alpha (NAC-alpha) (Alpha-NAC) (allergen Hom s 2); Expression: Brain,Cerebellum,Cervix,Cervix carcinoma,Epithelium  |                 |               |
