| Storage               | -20°C/1 year                                                                                                                                                                                                                                                    |
| Specificity           | This antibody detects endogenous levels of NUDT9 at Human/Mouse/Rat                                                                                                                                                                                             |
| Source / Purification | The antibody was affinity-purified from rabbit serum by affinity-chromatography using specific immunogen.                                                                                                                                                       |
| Immunogen             | Synthesized peptide derived from human NUDT9                                                                                                                                                                                                                    |
| Uniprot No            | Q9BW91                                                                                                                                                                                                                                                          |
| Alternative names     |                                                                                                                                                                                                                                                                 |
| Form                  | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                                                                                                                                                                         |
| Clonality             | Polyclonal                                                                                                                                                                                                                                                      |
| Isotype               |                                                                                                                                                                                                                                                                 |
| Conjugation           |                                                                                                                                                                                                                                                                 |
| Background            | The protein encoded by this gene belongs to the Nudix hydrolase family. Nudix boxes are found in a family of diverse enzymes that catalyze the hydrolysis of nucleoside diphosphate derivatives. This enzyme is an ADP-ribose pyrophosphatase that catalyzes th |
