

## PPR17 rabbit pAb antibody

| Catalog No :          | Source:                                                                                                                                       | Concentration : | Mol.Wt. (kD): |
|-----------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|-----------------|---------------|
| A20143                | Rabbit                                                                                                                                        | 1 mg/ml         | 17 kD         |
| Applications          | WB,ELISA                                                                                                                                      |                 |               |
| Reactivity            | Human,Monkey                                                                                                                                  |                 |               |
| Dilution              | WB: 1/500 - 1/2000. ELISA: 1/10000. Not yet tested in other applications.                                                                     |                 |               |
| Storage               | -20°C/1 year                                                                                                                                  |                 |               |
| Specificity           | PPP4R1L Polyclonal Antibody detects endogenous levels of PPP4R1L protein.                                                                     |                 |               |
| Source / Purification | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.                         |                 |               |
| Immunogen             | The antiserum was produced against synthesized peptide derived from human PPP4R1L. AA range:191-240                                           |                 |               |
| Uniprot No            | Q9P1A2                                                                                                                                        |                 |               |
| Alternative names     | PPP4R1L; C20orf192; Putative serine/threonine-protein phosphatase 4 regulatory subunit 1-like                                                 |                 |               |
| Form                  | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                                                       |                 |               |
| Clonality             | Polyclonal                                                                                                                                    |                 |               |
| Isotype               |                                                                                                                                               |                 |               |
| Conjugation           |                                                                                                                                               |                 |               |
| Background            | function:May be a regulatory subunit of serine/threonine-protein phosphatase 4.,similarity:Contains 4 HEAT repeats.,                          |                 |               |
| Other                 | Gene_name: PPP4R1L ; Protein_name: Putative serine/threonine-protein phosphatase 4 regulatory subunit 1-like; Expression: Fetal liver,Thymus, |                 |               |
