

## C5ARL rabbit pAb antibody

| Catalog No :          | Source:  | Concentration : | Mol.Wt. (kD): |
|-----------------------|--|-----------------|---------------|
| A11422                | Rabbit   | 1 mg/ml         | 37 kD         |
| Applications          | WB,ELISA   |                 |               |
| Reactivity            | Human  |                 |               |
| Dilution              | WB 1:500-2000 ELISA 1:5000-20000   |                 |               |
| Storage               | -20°C/1 year   |                 |               |
| Specificity           | C5ARL Polyclonal Antibody detects endogenous levels of protein.  |                 |               |
| Source / Purification | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.  |                 |               |
| Immunogen             | Synthesized peptide derived from human protein . at AA range: 270-350  |                 |               |
| Uniprot No            | Q9P296   |                 |               |
| Alternative names     |  |                 |               |
| Form                  | Liquid in PBS containing 50% glycerol, and 0.02% sodium azide.   |                 |               |
| Clonality             | Polyclonal   |                 |               |
| Isotype               |  |                 |               |
| Conjugation           |  |                 |               |
| Background            | complement component 5a receptor 2(C5AR2) Homo sapiens This gene encodes a G-protein coupled receptor 1 family member involved in the complement system of the innate immune response. Unlike classical G-protein coupled receptors, the encoded prote |                 |               |
| Other                 | Gene_name: GPR77 C5L2 ; Protein_name: C5a anaphylatoxin chemotactic receptor C5L2 (G-protein coupled receptor 77); Expression: Brain,PCR rescued clones,Placenta,  |                 |               |
