

## ERC2 rabbit pAb antibody

| Catalog No :          | Source:   | Concentration : | Mol.Wt. (kD): |
|-----------------------|---|-----------------|---------------|
| A14191                | Rabbit  | 1 mg/ml         | 105 kD        |
| Applications          | WB  |                 |               |
| Reactivity            | Human, Mouse,Rat  |                 |               |
| Dilution              | WB 1:500-2000   |                 |               |
| Storage               | -20°C/1 year  |                 |               |
| Specificity           | This antibody detects endogenous levels of ERC2 at Human/Mouse/Rat  |                 |               |
| Source / Purification | The antibody was affinity-purified from rabbit serum by affinity-chromatography using specific immunogen.   |                 |               |
| Immunogen             | Synthesized peptide derived from human ERC2   |                 |               |
| Uniprot No            | O15083  |                 |               |
| Alternative names     | ERC protein 2   |                 |               |
| Form                  | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.246% sodium azide.  |                 |               |
| Clonality             | Polyclonal  |                 |               |
| Isotype               |   |                 |               |
| Conjugation           |   |                 |               |
| Background            | This gene encodes a protein that belongs to the Rab3-interacting molecule (RIM)-binding protein family. Members of this protein family form part of the cytomatrix at the active zone (CAZ) complex and function as regulators of neurotransmitter release. Alt |                 |               |
| Other                 | Gene_name: ERC2 KIAA0378 ; Protein_name: ERC2; Expression: Brain,Epithelium,PNS,  |                 |               |
