

## FEZ2 rabbit pAb antibody

| Catalog No :          | Source:   | Concentration : | Mol.Wt. (kD): |
|-----------------------|---|-----------------|---------------|
| A14528                | Rabbit  | 1 mg/ml         | 38 kD         |
| Applications          | WB  |                 |               |
| Reactivity            | Human, Mouse,Rat  |                 |               |
| Dilution              | WB 1:500-2000   |                 |               |
| Storage               | -20°C/1 year  |                 |               |
| Specificity           | This antibody detects endogenous levels of FEZ2 at Human/Mouse/Rat  |                 |               |
| Source / Purification | The antibody was affinity-purified from rabbit serum by affinity-chromatography using specific immunogen.   |                 |               |
| Immunogen             | Synthesized peptide derived from human FEZ2   |                 |               |
| Uniprot No            | Q9UHY8  |                 |               |
| Alternative names     | Fasciculation and elongation protein zeta-2 (Zygin II) (Zygin-2)  |                 |               |
| Form                  | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.34% sodium azide.   |                 |               |
| Clonality             | Polyclonal  |                 |               |
| Isotype               |   |                 |               |
| Conjugation           |   |                 |               |
| Background            | This gene is an ortholog of the C. elegans unc-76 gene, which is necessary for normal axonal bundling and elongation within axon bundles. Other orthologs include the rat gene that encodes zygin II, which can bind to synaptotagmin. [provided by RefSeq, Jul |                 |               |
| Other                 | Gene_name: FEZ2 ; Protein_name: FEZ2; Expression: Adrenal gland,Brain,Colon,Liver,Lung,Skin,Testis,   |                 |               |
